

BOTANICAL BUGS

Inspired by artist Raku Inoue

Kindness to the Earth

Take only what you need.

Be gentle with your items.

Thank the Earth for helping you make this beautiful art!

Leave your art in a place for others to enjoy

Think about the relationship between plants and pollinators. What plants would not be here without Ontario's native pollinators?

Before you collect your materials, think about how the artist has used the natural colours and textures found in nature to imitate real insects.
